

## SAFETY NET POOL COVER - SAFETY GUIDELINES

### WARNING

- Pool safety products are effective only when used correctly and as intended. Please follow the instructions below to ensure safety.
- Remove the pool net completely before entering the pool.
- Always reinstall the pool net fully and securely after each use.
- Always ensure that children are supervised when near the pool.

### ADDITIONAL SAFETY REMINDERS

- Do not allow children or adults to play, jump, or run on the pool net, as this may cause premature damage.
- Keep pets away from the pool net, as chewing or biting can damage it. Such damage is not covered by the manufacturer's warranty.
- Always keep grills, fire pits, and other heat sources at a safe distance from the pool net.
- Never use the pool when the net is only partially installed. Ensure the net is fully secured before swimming.
- Remember, the pool is not fully protected until the net is properly installed, and the CTC system is securely tightened.

### WARNING: DROWNING RISK

- Objects beneath the net may not be visible. Exercise caution.
- Never stand, sit, or walk on the pool net, as this may cause damage or create a safety hazard.
- Ensure the net is completely removed before entering the pool for swimming.
- Competent adult supervision is critical at all times. There is no substitute for vigilant supervision.
- This safety net is not a replacement for adult supervision and does not guarantee that the pool is inaccessible.
